Dear Sir,

I am a student at the American International University Bangladesh (AIUB). I am submitting this cover letter in the hopes of joining your team as one of your web application developer interns. I learned about this information from your company website. I am currently searching for internship opportunities for the summer. I have attached my resume for your review.

I believe I am suitably qualified with a degree in Software Engineering, relevant work experience and the skill set required to make a positive and valuable contribution to your company.

I hold a degree in Software Engineering from American International University Bangladesh (AIUB). As an Engineer I am interested in continuous professional software development. My professional background experience includes web design and web development, implementing software development knowledge, identifying relevant bugs issue recommendations. Working in high pressure challenging environments has developed my capabilities in creative problem solving, multi-tasking and executing design projects of various scopes successfully. My proficiencies in building good web applications with PHP Laravel framework. My superior skill set and experience makes me an excellent candidate for the internship opportunities.

I would like the opportunity to meet with you to discuss any internship opportunities you might have.

Thank you for your consideration.

Sincerely,
Md. Amzad Hossain Jacky
